INSTRUCTIONS

1. This exam is available from **16 Feb 2016 9:00 (GMT+8)** until **22 Feb 2016 23:30 (GMT+8)**.
2. This is an open notes exam. It is designed to be completed in 3 hours. However, you can spend more time than this and are only limited by the submission deadline. Take note that you are responsible for checking the time difference between Hong Kong and your current local time, and factoring in the effect of potential Internet or connection difficulties.
3. The exam consists of 4 equally weighted sections (8 points total). Each section contains a mixture of multiple choice questions (MCQ, with single and multiple correct answers) and fill-in-the-blank questions, and a question focused on the lab material (either a MATLAB-based problem or something relating to packet sniffing). The lab focused questions are worth 2 out of the 8 points.
4. Each MCQ and fill-in-the-blank question can be submitted **ONCE** only. Correct answers to all the questions will be shown AFTER the due date of the exam.
5. Each MATLAB-based coding question can be submitted **5 TIMES**. The output of your code will be given after each submission. Hints on possible errors **WILL NOT** be provided.

Final Exam

Final Exam due Feb 22, 2016
at 15:30 UTC 

- ▶ MATLAB download and tutorials

NOTE

- During the exam period, the New Post function of the Discussion page will be disabled. You will not be able to post anything, but you can still read previous discussion posts. In case you encounter any technical problems and/or have questions related to the final exam, you can send an email to **hkustx.elec1200.3x@gmail.com**. You are also recommended to check the Course Info page often for updates about the exam.

Honor Code Pledge

☒ I declare that I have followed all the instructions above and the answers submitted for this examination are based on my own independent effort.

Click on the **Check** button after ticking the checkbox above.
